

Hinged gear tray

20mm gland entries as standard

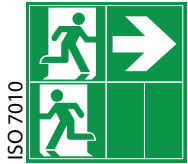

LI-ION SELF-TEST LED MAINTAINED EMERGENCY BULKHEAD

LiFePO4 Lithium battery technology offers reduced energy consumption, enhanced charging cycle capacity & improved operational life compared to standard NiCad products. Self test technology is more effective and reliable than manual testing saving time and disruption to normal operation of the building

- Polycarbonate construction • Hinged gear tray & push fit terminal block
- 20mm gland entries as standard • Central BESA box mounting option on the base
- Minimum 3 hour functionality in emergency mode
- Facility for remote switching and non-maintained mode
- Automatic Testing complies with BS EN 62034
- Self-adhesive ISO 7010 legend pack included with a combination of symbols allowing multiple exit path designation options
- Battery: Li-Ion 3.2V 1500mAh
- Battery 1 year warranty - Replacement battery code: EB19

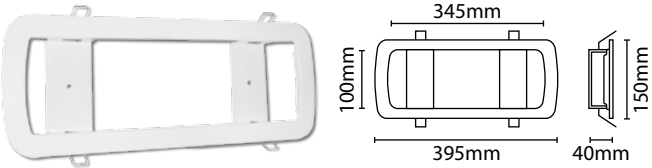

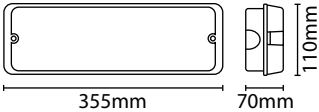

BFRAME:

- Pressed steel construction • Spring retaining clips
- Semi recessed fixing: allows a more discreet installation option
- Hole cut out size: 355mm x 120mm
