

ETERNA LIGHTING LTD'S VISION STATEMENT:

To provide a first rate experience helping customers transact confidently and empowering them to maximise their own success.

VALUES

- ✓ Inspire Kindness
- ✓ Respect Others
- ✓ Show Integrity
- ✓ Embrace Family
- ✓ Share Positivity

Who Are..... Eterna?

- ✓ 75+ years supplying the lighting industry
- ✓ Family owned financially robust business
- ✓ Wide portfolio of products for commercial, domestic & industrial markets
- ✓ Quality assurance from ISO9001, partner relationships and AQL testing
- ✓ Customer focussed LED warranty policy
- ✓ Accredited member of LIA

Our Offer

- ✓ Supporting customers on UK mainland from Wellingborough and Ireland
- ✓ Next day delivery and direct to site options (conditions apply)
- ✓ Significant stocks in both UK and Dublin
- ✓ Experienced and helpful sales & customer service teams
- ✓ Expertise & advice from the technical team
- ✓ Specification sheets & IES files available for download
- ✓ Continual flow of new products
- ✓ Innovative marketing materials
- ✓ Network of supporting distributors

EMERGENCY LIGHTING

OR

WHAT IS THE DIFFERENCE BETWEEN MAINTAINED & NON MAINTAINED?

MAINTAINED

ILLUMINATED ALL THE TIME & IN EMERGENCY MODE STAYS ILLUMINATED BUT AT A LOWER LIGHT LEVEL

Luminaire is continuously illuminated and switches on to emergency battery operation in the event of a mains failure.

NON-MAINTAINED

ILLUMINATES ONLY IN EMERGENCY MODE

Luminaire is normally off but illuminates in emergency battery operation in the event of a mains failure.

Green LED is illuminated in normal operation to indicate there is a healthy charge into the battery.

SEE WEBSITE FOR REPLACEMENT EMERGENCY BATTERIES

THE COMPLETE EMERGENCY SERVICE

Keep up to date with new emergency products on our website

- ✓ Signs Directive range
- ✓ ISO 7010 range
- ✓ Self-Test range
- ✓ Battery Replacement Service
- ✓ 5 Year Warranty on all LED products (1 Year Warranty on batteries)

STAY SAFE • SAVE TIME • SPECIFY ETERNA

EMERGENCY VARIATIONS EXPLAINED

	Maintained (Unswitched) (Permanent Live PL)	Luminaire is continuously illuminated and will switch over to emergency, battery operation, in the event of a mains failure
	Maintained (Switched) (Switched Live SL)	Luminaire can be switched on & off in normal operation, and will switch over to emergency, battery operation, in the event of a mains failure
	Non Maintained	Luminaire is normally off but illuminates in emergency, battery operation, in the event of a mains failure
	Sustained	When a fitting has a dedicated separate lamp that operates in emergency mode

SELF-TEST EXPLAINED

www.eterna-lighting.co.uk/self-test

How does the Eterna Self-Test system work?

- ✓ On installation, the internal clock will assign a date for the monthly and annual test - the installer does not need to set anything up!
- ✓ The initial monthly test will occur between 16 and 30 days of installation. Subsequent monthly tests will occur every 30 days.
- ✓ The initial full test will occur between 200 and 360 days from installation. Subsequent annual tests will occur every 360 days.

Operation	Indicator colour	Action / number of flashes within 3 seconds
Normal operation		Constant
Duration test is underway		 Rapid
Battery circuit		
Light source failure		
Failure of duration test		
Auto test function fails		
LED indicator off	-	In Emergency mode (mains failure)

The benefits of Eterna's Self-Test Emergency Lighting

- ✓ More effective and reliable than manual testing
- ✓ Easy to install
- ✓ Saves time and money
- ✓ Testing causes no disruption to the normal operation of the building
- ✓ Staggered tests mean all areas are protected in the event of a power failure

SELF-TEST

All Eterna Self-Test products in this catalogue can be identified by the green font as shown above

LED EMERGENCY BULKHEADS

Low energy alternative to standard fluorescent emergency bulkheads

V1

- Polycarbonate construction • Internal or external use • 20mm gland entries as standard
- Hinged gear tray & push fit terminal block: allows for quicker and easier installation and maintenance
- Minimum 3 hour functionality in emergency mode • High output LEDs with bright white light
- Semi recessed fixing option available: BULKFRAME allows a more discreet installation option
- Dedicated self adhesive legend pack included with a combination of symbols: allows multiple exit path designation options
- Additional legend sets available: ISOLGDSET (ISO 7010 format) / LGDSET (signs directive format) which can be used as additional legend sets or as individual stickers for walls and doors
- 235 lm (mains) / 150 lm (battery) • Earthed
- Battery - Ni-Cd 3.6V 1500mAh
- Battery 1 year warranty - Replacement battery code: EB1
- IES files available

MAINTAINED VERSIONS:

- Facility for remote switching and non-maintained mode

BULKFRAME:

- Pressed steel construction • Spring retaining clips
- Semi recessed fixing: allows a more discreet installation option
- Hole cut out size: 350mm x 117mm

LI-ION SELF-TEST MAINTAINED LED EMERGENCY BULKHEAD

V1

LiFePO4 Lithium battery technology offers reduced energy consumption, enhanced charging cycle capacity & improved operational life compared to standard NiCad products. Self test technology is more effective and reliable than manual testing saving time and disruption to normal operation of the building

- Polycarbonate construction • Hinged gear tray & push fit terminal block • 20mm gland entries as standard
- Minimum 3 hour functionality in emergency mode • 270 lm (mains) / 150 lm (battery)
- Facility for remote switching and non-maintained mode
- Automatic Testing complies with BS EN 62034
- Self-adhesive ISO 7010 legend pack included with a combination of symbols allowing multiple exit path designation options
- Double Insulated • Battery: Li-Ion 3.2V 1500mAh
- Battery 5 year warranty - Replacement battery code: EB19
- IES files available

BFRAME:

- Pressed steel construction • Spring retaining clips
- Semi recessed fixing: allows a more discreet installation option
- Hole cut out size: 355mm x 120mm

ETERNA EMERGENCY BATTERY PACKS ARE COMPATIBLE WITH:

**LED PANELS
& COMMERCIAL DOWNLIGHTS**

EMERGENCY BATTERY PACKS & SELF-TEST OPTION

2
Year Warranty

Emergency Product

- Polycarbonate construction • LED charge light • Earthed
- Enables LED panel lights to be converted into emergency luminaires, rated at 10-60V 100W max
- Control gear can be removed from the housing: allows use in installations with smaller hole cut out
- 3 hours duration in emergency mode
- Push fit plug and socket: allows quick & easy installation
- Facility for non maintained mode and for remote switching
- Battery - Ni-Cd 3.6V 4.5Ah
- Battery 1 year warranty - Replacement battery code: EB5
- **SEEBPM3** - Automatic testing in accordance with BS EN 62034

LI-ION EMERGENCY BATTERY PACK

2
Year Warranty

Emergency Product

Li-Ion Battery

Compact & lightweight emergency back up pack for use with LED panels & downlights incorporating Lithium battery technology

V1

- Tough polycarbonate enclosure • Double insulated
- LiFePO4 Lithium battery technology offering reduced energy consumption, enhanced charging cycle capacity & improved operational life compared to standard NiCad products
- 3 hour maintained or non maintained operation
- Enables LED luminaires to be converted to emergency, rated: 18-60Vdc maximum 150W load
- Charging LED housed in recessed holder allowing placement adjacent to luminaire
- Push twist & lock plug in system for quick & easy installation
- Battery - Li-Ion 6.4V 1500mAh
- Battery 5 year warranty - Replacement battery code: EB20

EMERGENCY LIGHTING

IP65 LED TWINSPOUT EMERGENCY FITTING

5

Year Warranty

Emergency Product

IP65

Proven fitting with long term reliability and performance along with high ingress protection

V1

- Polycarbonate construction • IES files available
- Twin 3W LED projectors: provide superior light output to traditional twin spot fittings
- Horizontally and vertically adjustable heads, 180° rotation across the horizontal plane
- IP65 rating utilising high quality polycarbonate enclosure: for installation in wet or dusty environments
- Reduced battery capacity requirement: allows a more compact design reducing the weight dramatically compared to traditional products facilitating easier installation
- Minimum 3 hour non-maintained functionality in emergency mode
- Individual indicator to show healthy charge to battery
- Earthed • Battery - Ni-Cd 3.6V 6Ah
- Battery 1 year warranty - Replacement battery code: EB3

Helping your Emergency Lighting perform longer!....

NEW - 5 year warranty on LiFePO4 Batteries

Like most competitors, we are unable to include batteries in extended warranties, but do feel it's unfair & not environmentally friendly that good fittings become redundant due to the battery reaching the end of its life.

We would firstly suggest that you follow our maintenance guidance (see below) on emergency products to maximise battery life, but would also like to offer the reassurance of a battery replacement service to support our current emergency product offer – we will try to help with legacy products but cannot guarantee availability.

Please note that in the unlikely event your new fitting is supplied with a faulty battery, we will replace the battery free of charge subject to our terms and conditions.

WE ONLY RECOMMEND ETERNA REPLACEMENT BATTERIES WITH ETERNA EMERGENCY PRODUCTS

IMPORTANT OPERATIONAL CHECKS TO KEEP YOUR FITTING WORKING

Periodic testing should be carried out to ensure emergency lighting is operating correctly. For the period of the test, isolate the power supply by operation of a key switch, or other isolation device. At the end of the test, power should be restored and all indicator lamps checked.

DAILY: Visual inspection of the battery charge LED.

EACH MONTH: Isolate the power supply for a period sufficient to ensure that each lamp is illuminated. Endorse the test record form supplied.

ONCE EACH YEAR: Isolate the power supply and check that the light is still illuminated after 3 hours. Endorse the test record form.

BATTERY REPLACEMENT

If after routine operation check, the lamp does not remain illuminated for the three hour period, a new battery pack may be required.

- 01) Switch off the electricity at the mains, both switched and permanent supply.
- 02) Allow batteries to fully discharge then reconnect to supply and allow to charge for 24 hours.
- 03) Test again for 3 hours, if light does not remain illuminated change the battery pack.
- 04) Check install guides for procedure on changing the battery.

FRESH PRINCE POWER AND COLOUR TEMPERATURE SELECTABLE CIRCULAR / SQUARE LED UTILITY FITTINGS & LI-ION EMERGENCY VERSIONS

V3

5
Year Warranty

Li-Ion Battery

IK08

Colour Temp. Selectable

High output, energy saving utility LED wall / ceiling fixtures with standard, emergency & multi-function microwave control versions. Both opal & prismatic versions are available for either smooth diffuser effect or maximum light output. Diffusers are supplied not fitted to bases and fully captive diffuser fixing screws are utilised to save installation time. Step Dim microwave versions provide the best in flexibility & energy saving options

- Polycarbonate construction
- Push fit terminals
- Hinged gear tray
- Captive fixing screws
- Four 20mm cable entries on the side and one to the rear
- Power Selectable - options of 9W, 14W and 18W easily set by a dip switch on the driver
- Colour temperature selectable - options of 3000K, 4400K & 6500K easily set by a dip switch on the driver
- Double insulated
- IES files available

EMERGENCY VERSIONS:

- 3 hour maintained mode as standard which can also be configured for non maintained operation
- Battery - Li-Ion 3.2V 1500mAh • Battery 5 year warranty - Replacement battery code: EB11

STEP DIM MICROWAVE VERSIONS:

- Daylight Sensor adjustable: 10 lux / disable • Detection Sensitivity adjustable: 50% / 100%
- Detection angle: 30~150° • Adjustable detection range: 4-6m at 3m installation height

Standard on/off mode:

- Operation at 100% light level then off after last presence detection. Operation on time can be set at 5 sec, 90 sec, 3 min (180 sec), 10 min

Corridor mode:

- Operation at 100% light level after last presence detection which can be set at 5 sec, 90 sec, 3 min (180 sec), 10 min, then continuous operation at 10% or 30% light level

Corridor & off mode:

- Operation at 100% light level after last presence detection which can be set at 5 sec, 90 sec, 3 min (180 sec), 10 min, then operation at 10% or 30% light level which can be set at 10 sec / 10 min, then off

CEILING/WALL/BULKHEADS

CHARA POWER AND COLOUR TEMPERATURE SELECTABLE CIRCULAR LED CEILING/WALL LIGHTS & LI-ION EMERGENCY VERSIONS

Offering 3 selectable power levels and 3 selectable colour temperatures, this versatile range offers the ultimate in practicality and multiple options from a single product. Suitable for interior or exterior installation the range of accessories ensures suitability for functional or decorative applications V1

- All fittings come with a white full trim • Hinged LED array • Push fit terminal block • Polycarbonate diffuser
- Optional accessories available separately: black, white and grey eyelid trims or full chrome trim
- Power Selectable - options of 9W, 14W and 18W easily set by a dip switch on the driver
- Colour temperature selectable - options of 3000K, 4400K & 6500K easily set by a dip switch on the driver
- Enclosure rated as IK10 for impact resistance • Central BESA box mounting option on the base
- Double insulated • IES files available

EMERGENCY VERSIONS:

- 3 hour maintained mode as standard which can also be configured for non maintained operation
- Battery - Li-Ion 3.2V 1500mAh • Battery 5 year warranty - Replacement battery code: EB11

STANDARD ON/OFF MICROWAVE SENSOR VERSIONS:

- Adjustable detection angle: up to 150° • Adjustable detection range: Max. 4-6m at 3m installation height
- Adjustable time setting: 5 seconds - 30 minutes • Adjustable Lux control: 2/10/25/50 lux or disable
- Detection is possible through doors, glass panels & thin walls

STEP DIM MICROWAVE VERSIONS:

- Daylight Sensor adjustable: 10 lux / disable • Detection Sensitivity adjustable: 50% / 100%
- Detection angle: 30~150° • Adjustable detection range: 4-6m at 3m installation height

Standard on/off mode:

- Operation at 100% light level then off after last presence detection. Operation on time can be set at 5 sec, 90 sec, 3 min (180 sec), 10 min

Corridor mode:

- Operation at 100% light level after last presence detection which can be set at 5 sec, 90 sec, 3 min (180 sec), 10 min, then continuous operation at 10% or 30% light level

CARINA LED COLOUR SELECTABLE FITTINGS & LI-ION EMERGENCY VERSIONS

5
Year Warranty

Emergency Product

Li-Ion Battery

IP65

Colour Temp. Selectable

Microwave Sensor

Versatile range of decorative bulkheads, offering practicality and style with multiple functional options

V1

- Polycarbonate construction • Full circular LED array • IP65, ceiling or wall mounted
- Colour temperature selectable - options of 3100K, 4200K & 6400K easily set by a dip switch on the gear tray
- Plug in connector between the terminal block and the gear tray. Terminal block is located on the base, allowing for easy wiring and the gear tray to be removed during installation
- Double insulated • IES files available

EMERGENCY VERSIONS:

- 3 hour maintained mode as standard which can also be configured for non maintained operation
- Battery - Li-Ion 3.2V 1500mAh • Battery 5 year warranty - Replacement battery code: EB11

MICROWAVE SENSOR VERSIONS:

- Adjustable microwave sensor: with options to adjust 2-50 lux or disable, detection range 10-100% and time 5 secs - 15 mins
- The microwave sensor is discreetly placed behind the diffuser: making it unobtrusive so there is no compromise to the appearance of the fitting or the room design

10% STEP DIM MICROWAVE SENSOR VERSIONS:

- Operation at 100% light level after last presence detection, reducing to 10% light output after installer selected time delay
- Delay time to 10% operation adjustable: 5 sec / 30 sec / 1 min / 5 min / 15 min / 30 min
- 30~150° detection angle
- 12~18m adjustable detection range: 100% / 75% / 50% / 25% / 10%
- Detection is possible through doors, glass panels and thin walls

BULKHEAD WITH 120° PIR

1
Year Warranty

- ABS construction
- Requires suitable BC energy saving lamp (not included). Fitting is rated at 60W max
- Vertically & horizontally adjustable detector • 12 metre range • 120° detection zone
- Time on adjustable (10±5) sec - (4±1) min • Factory preset PIR - no override facility
- Adjustable LUX level • Earthed

V1

Code	Wattage	IP Rating	MOM / OPQ
PIR80BK	60W Max	IP44	1 / 20

CEILING/WALL/BULKHEADS

LED BULKHEADS

5
Year Warranty

Energy efficient LED alternative to traditional bulkheads with PIR option that offers durability for domestic and light commercial applications

- Tough polycarbonate housing • Double insulated

PIR VERSION:

- Time on adjustment 5 secs - 5 mins • Lux level adjustments
- 120° detection angle • 8 metre detection range

Code	Version	Wattage	Colour Temp.	Lumens	Avg. Rated Life (Hrs)	IP Rating	MOM / OPQ
BLEDBK	Standard	7W	3100K	500 lm	35,000 hrs	IP44	1 / 10
BLEDPIRBK	120° PIR						

LED BULKHEADS WITH OPAL DIFFUSER

5
Year Warranty

Highly efficient 104 lm/W, super bright general purpose bulkhead

- Tough polycarbonate construction • Opal diffuser • Double insulated
- Three 20mm knock-out conduit entry positions, one each end and one on rear

KRECBOLPC: Integral photocell: automatic dusk to dawn operation

Code	Version	Wattage	Colour Temp.	Lumens	Avg. Rated Life (Hrs)	IP Rating	MOM / OPQ
KRECBOLPL	Standard	10W	4000K	1045 lm	40,000 hrs	IP65	1 / 10
KRECBOLPC	Photocell						

ATOM LED BULKHEAD

5
Year Warranty

Highly cost effective, compact, ultra low energy, modern design utility bulkhead

- Instant start to full illumination level: giving crisp, super bright light output
- Polycarbonate construction: impact and corrosion resistant
- External fixing points: for quick & easy installation
- 3 x 20mm cable entries: offering multiple installation options
- Compact design • Double insulated

Code	Wattage	Colour Temp.	Lumens	Avg. Rated Life (Hrs)	IP Rating	MOM / OPQ
ATOM5	6W	4200K	450 lm	25,000 hrs	IP65	1 / 20

BULKHEAD WITH E27 LAMPHOLDER

1
Year Warranty

- Requires 1 x suitable E27 lamp (not included). Fitting is rated at 100W max
- Easy connection directly into the lampholder
- Polycarbonate and ABS construction: impact and corrosion resistant
- Pre-formed 20mm cable entry knockouts on each end and one on rear
- IP65 - suitable for internal and external use
- Double insulated

Code	Wattage	IP / IK Rating	MOM / OPQ
BH100E27	100W Max	IP65 / IK08	1 / 10

SURFACE LED WALL LIGHTS

5

Year Warranty

IP65

160° PIR

- Polycarbonate construction suitable for coastal areas • Opal diffuser • Integral driver • Double insulated
- Downward facing opal diffuser gives a pleasing wall washed effect • IES files available

V1

PIR VERSIONS:

- PIR Time on adjustment 5 secs - 8 mins • 160° detection angle
- 8 meter detection range
- Lux level adjustments - option for day and night time operation or night time operation only

Code	Colour	Version	Wattage	Colour Temp.	Lumens	Avg. Rated Life (Hrs)	IP Rating	MOM / OPQ

LED SLIM SURFACE BRICKLIGHT

5

Year Warranty

IP65

Superslim surface mounting mains voltage LED amenity fixtures for garden and path illumination, which offers a fantastic alternative to traditional bricklights without the hassle of recessed installation

V1

- ABS housing, polycarbonate diffuser
- Double insulated
- IES files available

Code	Wattage	Colour Temp.	Lumens	Avg. Rated Life (Hrs)	IP Rating	MOM / OPQ
SLICELONG	3W	4000K	188 lm	30,000 hrs	IP65	1 / 24

LED RECESSED BRICKLIGHT WITH STAINLESS STEEL FRAME

5

Year Warranty

IP65

A modern design that gives an instant cool white light. Ultra low energy consumption and prolonged lamp life

V1

- Polycarbonate construction • Integral driver • Cable gland included
- Opal diffuser with optional stainless steel frame offering a soft, stylish lighting effect • Double insulated
- Hole cut out size: L: 228mm, D: 75mm, H: 98mm

Code	Wattage	Colour Temp.	Lumens	Avg. Rated Life (Hrs)	IP Rating	MOM / OPQ
BRICKLED	5.4W	6000K	280 lm	20,000 hrs	IP65	1 / 6

LED CORNER FIXTURE RANGE

5

Year Warranty

IP65

120° PIR

Flexible and decorative range of fittings ideally suited for outdoor applications requiring corner lights

V1

- Complete solution for flat wall or corner mounting: bracket included for optional corner mounting
- Double insulated

PIR VERSION:

- Factory preset 120° PIR • 10 lux - 7 minutes duration
- No override facility

OFFICE BUILDING LIGHTING GUIDE

all guides can be downloaded from our website: www.eterna-lighting.co.uk/guides/

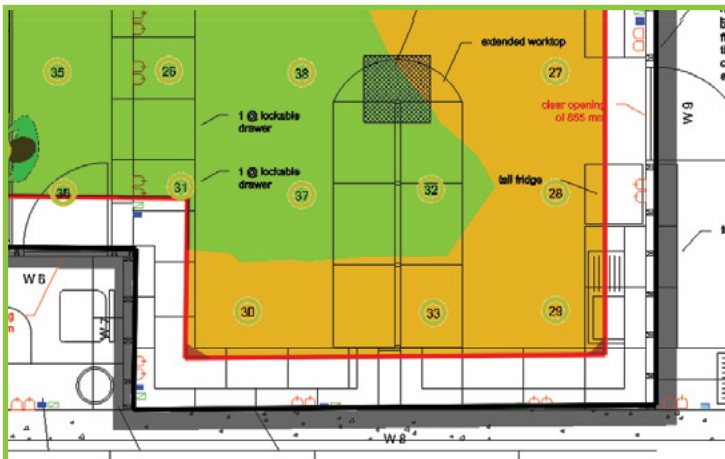

Eterna can supply all lighting products for all typical commercial and office buildings

PANELS

FREE LIGHTING DESIGN SERVICE

To apply, simply complete the online form on our website:
www.eterna-lighting.co.uk/lighting-design-schemes/

For more complex projects we are able to produce Lighting Design schemes to meet specific commercial needs, using **Relux** and **DIALux** design software.

THIS IS A FREE SERVICE DESIGNED TO HELP YOU WIN BUSINESS

Emergency Compatible

ALL ETERNA LED PANELS CAN BE CONVERTED INTO EMERGENCY LUMINAIRES

PANELS

TP(B) LED PANELS

5
Year Warranty

Emergency
Compatible

These light panels are designed to fit into the space normally occupied by standard 600mm x 600mm ceiling tiles, and are therefore a direct replacement for traditional modular fluorescent fittings used in many offices, educational and commercial applications

V1

- Aluminium frame • Supplied with Lifud branded driver
- Low glare and even shadow free light distribution ensures suitability for a variety of applications: visually superior to standard fluorescent panels
- 4000K colour temperature, edge lit: offering a bright neutral white lighting effect
- 5000K colour temperature, edge lit: offering a cool white lighting effect
- Ultra slim profile and a white trim finish to match the majority of T. bar ceilings
- CRI Ra:≥80: High CRI to minimise colour distortion of illuminated products
- Surface mounting can be achieved by using screwless kit: SURFACEMK
- Can be recessed in the ceiling or suspended from wires: see PANSUSKIT suspension kit
- Ability to be converted into an emergency luminaire: see below for emergency battery packs
- Double insulated • IES files available

TP(b) Meaning

Specifiable ceiling panel with dimming options offering efficient output and TP(b) compliance and assurance from a Lifud branded driver

Code	Wattage	Colour Temp.	Lumens	Avg. Rated Life (Hrs)	IP Rating	MOM / OPQ

600X600 LOW GLARE UGR≤19 LOUVERED PANEL

5
Year Warranty

Emergency
Compatible

This stylish indirect LED panel is primarily intended for areas where low glare compliance is required, but also suits any installation where high quality installation appearance & superior lighting performance is desired. Specifically engineered to achieve UGR≤19 and offering even light distribution with the minimum number of luminaires per installation

V1

- Eliminates the need for TP(a) or TP(b) compliance due to steel construction
- Includes a plug and play constant current non-dimmable LED driver
- High CRI (≥80): to minimise colour distortion of illuminated area & objects
- 4000K colour temperature offering a bright neutral white lighting effect
- White finish matching the majority of exposed T bar ceilings
- Push fit wiring terminal direct into the LED driver, terminal capacity up to 1.5mm²
- Surface mounting can be achieved by using screwless kit: SURFACEMK
- Ability to be converted into an emergency luminaire: see below for emergency battery packs
- Double insulated • IES files available

Code	Wattage	Colour Temp.	Lumens	Avg. Rated Life (Hrs)	IP Rating	MOM / OPQ

600X600 BACKLIT LED PANEL

5
Year Warranty

Emergency
Compatible

This commercial backlit LED panel produces a uniform light output with easy loop-in, loop-out push fit connectors whilst maintaining an ultra thin 35mm depth

V1

- Steel back panel, aluminium frame and polystyrene diffuser construction • IES files available
- Ra: ≥80, high CRI to minimise colour distortion of illuminated products in retail applications
- Zero maintenance, integral light source providing instant light output
- Operating temperature: 5 to 45°C • Lumen efficacy: 111 lm/W
- Includes a plug and play constant current non-dimmable LED driver
- Back lit: offering a bright neutral white lighting effect
- White trim finish to match the majority of T. bar ceilings
- Push fit wiring terminal direct into the LED driver • Double insulated
- Surface mounting can be achieved by using screwless kit: SURFACEMK
- Can be recessed in the ceiling or suspended from wires: see PANSUSKIT suspension kit
- Ability to be converted into an emergency luminaire: see below for emergency battery packs

Code	Wattage	Colour Temp.	Lumens	Avg. Rated Life (Hrs)	IP Rating	MOM / OPQ

BATTENS INTERIOR

INTERIOR BATTEN LIGHTING GUIDE

all guides can be downloaded from our website: www.eterna-lighting.co.uk/guides/

LED interior battens are the energy saving alternatives to traditional fluorescent versions.

Interior LED Batten Benefits

- ✓ Energy saving LEDs
- ✓ Bright illumination
- ✓ Long life-span
- ✓ Minimal maintenance
- ✓ Versatile for many installations
- ✓ Flicker free (excluding T8LED)
- ✓ Instant light output
- ✓ Popular in carparks, garages & toilet blocks
- ✓ Often used in bus & train stations
- ✓ Also ideal for storage rooms, hallways, corridors and canteen areas

Interior LED
battens are suitable
for a mounting
height between
2.5m and 5m

BATTENS - INTERIOR

BATLED range

LED STANDARD & HIGH OUTPUT BATTENS & LI-ION EMERGENCY VERSIONS

- LED
- 5 Year Warranty
- Emergency Product
- Li-Ion Battery
- 100° PIR

Full photometric data available to enable lighting designs. Light output is equivalent or superior to traditional fluorescent battens

- Pressed steel body and polycarbonate diffuser
- LED tray can be removed from the housing for easy installation
- 20mm knockout glands at each end for through wiring options
- BESA box mounting • Gear tray retaining straps
- Push terminal connections • Earthed • IES files available

EMERGENCY VERSIONS:

- LiFePO4 Lithium battery technology offering reduced energy consumption, enhanced charging cycle capacity & improved operational life compared to standard NiCad products
- Built-in battery overcharge protection • 3 hour non maintained operation
- Integrated green charging indicator LED • 160 lm in emergency mode
- Battery - Li-Ion 3.2V 1500mAh • Battery 5 year warranty - Replacement battery code: EB19

BATLEDPIR:

- Robust polycarbonate construction
- Time-on adjustable: 30 secs, 3 mins, 5 mins, 8 mins
- Night & day or night only options selectable
- Detection range 3-6 metres • 100° detection area
- Double insulated

BATTENS - WEATHERPROOF

LED WEATHERPROOF IP65 BATTENS & LI-ION EMERGENCY VERSIONS

5
Year Warranty

Emergency
Product

Li-Ion Battery

IP65

IK10

Microwave
Sensor

This range is quick and easy to install due to "loop in & out" push fit connectors and features an IK10 "anti-drop" diffuser

V1

- Multiple cable entries, allowing for "loop in & out" wiring via push fit terminal block
- Earthed
- "Anti-drop" polycarbonate diffuser & gear tray for ease of installation
- Producing up to 106 lm/W
- Three mounting options - BESA box, directly onto ceiling surfaces or stainless steel suspension clips (incl)
- Standard fitting operating temperature: -20 to 45°C
- Emergency fitting operating temperature: 0 to 45°C
- Supplied with a 20mm IP65 gland & fixings kit
- IK10 rated fitting maximises durability and strength
- LED performance allows for "like for like" replacement of existing fluorescent luminaires
- IES files available

EMERGENCY VERSIONS:

- Emergency 3 hour duration maintained operation with the facility for remote switching
- Battery - Li-Ion 6.4V 1500mAh
- Battery 5 year warranty - Replacement battery code: EB20

MICROWAVE SENSOR VERSIONS:

- Integral adjustable microwave sensor, options to adjust daylight sensor 2-50 lux or disable, detection sensitivity 10-100% (range up to 10m, angle 30-150°). Hold on time 5 seconds to 15 minutes

BATTENS - WEATHERPROOF

LED WEATHERPROOF IP65 BATTENS & LI-ION EMERGENCY VERSIONS

5
Year Warranty

Li-Ion Battery

This range is quick and easy to install due to "loop in & out" push fit connectors and features an IK10 "anti-drop" diffuser

V1

- Multiple cable entries, allowing for "loop in & out" wiring via push fit terminal block • Earthed
- "Anti-drop" polycarbonate diffuser & gear tray for ease of installation • IES files available
- Three mounting options - BESA box, directly onto ceiling surfaces or stainless steel suspension clips (incl)
- Stainless steel diffuser clips supplied as standard, suitable for food industry applications
- Standard fitting operating temperature: -20 to 45°C • Emergency fitting operating temperature: 0 to 45°C
- Supplied with a 20mm IP65 gland & fixings kit • IK10 rated fitting maximises durability and strength
- LED performance allows for "like for like" replacement of existing fluorescent luminaires
- Producing up to 106 lm/W • IES files available for lighting designs

EMERGENCY VERSIONS:

- Emergency 3 hour duration maintained operation with the facility for remote switching
- Battery - Li-Ion 6.4V 1500mAh
- Battery 5 year warranty - Replacement battery code: EB20

HIGH OUTPUT LED FLOODLIGHTS

V1

5
Year Warranty

Robust high output floodlight range offering performance and durability for industrial and commercial applications

FLOOD50W / 80W - PERFECT FOR INDUSTRIAL & COMMERCIAL APPLICATIONS
FLOOD120W / 200W - PERFECT WHEN A HIGHER MOUNTING HEIGHT IS REQUIRED

- High Power LED Chip array: which is better suited to these higher power ratings, where the large physical size of the housing and chip array maximises performance available from this technology
- 4000K colour temperature: bright light without the harsh effect of higher colour temperature products
- Die cast aluminium construction, toughened safety glass lens
- Pre-wired with 80cm of cable
- Over 108 lm/W • Earthed • IES files available

Code	Wattage	Colour Temp.	Lumens	Avg. Rated Life (Hrs)	IP Rating	MOM / OPQ

DOWNLIGHTS

30-60-90 MINUTE FIRE RATED GUIDE

- ✓ Building regulation Part B specifies the level of fire protection within properties – typically ceilings have to be 30, 60 or 90 minute rated
- ✓ Cutting a hole in the ceiling compromises its integrity
- ✓ It is important that fire rated downlights pass all three tests separately
- ✓ It is not safe to assume that passing the 90 minute test means a downlight would also pass the 30 and 60 minute tests
- ✓ Eterna fire rated downlights will maintain the original fire rating of 30, 60 and 90 minute ceilings
- ✓ In the event of a fire, intumescent material will expand to seal the hole and block the passage of fire from passing through the downlight

See page 56 for our fire rated downlights

DOWNLIGHTS

LED FIRE RATED COLOUR AND POWER SELECTABLE DIMMABLE DOWNLIGHT

Eterna's most flexible downlight; with dimmable LED, selectable power and selectable CCT, IP65 rating, plus fire rating for standard ceilings and I-Joist ceilings.

V1

- Fixed pressed steel LED downlight with polycarbonate diffuser and 60mm cut out diameter
- Fire-rated for individual 30, 60 and 90 minute ceiling types
- Fire-rated for I-Joist ceiling types; separate 30 and 60 minute testing
- Power selectable - use the rear-mounted dip switch to select 5W or 8W to achieve preferred lumen output and energy usage
- Colour temperature selectable - easily select between 3000K, 4200K or 6500K to suit the application or preference
- Dimmable integrated LED light source (use compatible dimmer)
- Wide 60° beam angle and IP65 rating for general illumination of all general interior applications, including bathrooms
- Pre-wired with 10cm cable onto connector with push-fit terminal block - suitable for loop-in loop-out connection
- Complete with classic white bezel with foam back to seal against air permeability. Additional chrome, satin nickel or black bezels available

LED FIRE RATED COLOUR AND POWER SELECTABLE DIMMABLE DOWNLIGHT

5
Year Warranty

Power
Selectable

Colour Temp.
Selectable

Fire Rated

Eterna's most flexible downlight; with dimmable LED, selectable power and selectable CCT, IP65 rating, plus fire rating for standard ceilings and I-Joist ceilings.

- Fixed pressed steel LED downlight with polycarbonate diffuser and 60mm cut out diameter
- Fire-rated for individual 30, 60 and 90 minute ceiling types
- Fire-rated for I-Joist ceiling types; separate 30 and 60 minute testing
- Power selectable - use the rear-mounted dip switch to select 5W or 8W to achieve preferred lumen output and energy usage
- Colour temperature selectable - easily select between 3000K, 4200K or 6500K to suit the application or preference
- Dimmable integrated LED light source (use compatible dimmer)
- Wide 60° beam angle and IP65 rating for general illumination of all general interior applications, including bathrooms
- Pre-wired with 10cm cable onto connector with push-fit terminal block - suitable for loop-in loop-out connection
- Complete with classic white bezel with foam back to seal against air permeability. Additional chrome, satin nickel or black bezels available

CABINET LIGHTING

Cabinet lighting creates an ambient atmosphere for your kitchen whilst maintaining its practicality.

Use our LED under cabinet lighting to direct light on worktops, keeping you safe whilst working with appliances and sharp objects.

Our LED cabinet light fittings can be easily utilised in many other applications where a subtle but powerful light is required in a covered dimly lit area.

CABINET LIGHTING

LED SUPER FLAT STRIP LIGHTS

5
Year Warranty

Ultra low power consumption with excellent light output. The inclusion of a link lead and butt connector allows continuous linear, spaced linear or radial installations

V2

- Aluminium and polycarbonate construction
- Ultra-bright warm white LEDs for a pleasing lighting effect (3000K colour temperature)
- Reeded diffuser for soft diffused light
- Fixing clips included for under-cabinet or wall installation
- 300mm link lead and butt connector included: allowing flexible linking options • Double insulated

DRIVER:

- For use with SFLWW range only • Allows multiple strip lights to be linked
- Includes 0.5m mains cable & 2m fitting supply cable with amp-plug connector: easy installation
- Allows any combination of SFLWW9 & SFLWW15 upto a maximum power load of 36W: simply link the first fitting to the driver and subsequent fittings to each other

- Adjustable proximity sensitivity: allows user preference for on switching
- Pre-wired with 1 metre of mains lead: easy installation • Earthed
- Air speed: 17.8m/sec: rapid hand drying • Airflow: 2.6m³/min.

Code	Wattage	IP Rating	MOM / OPQ
HDA-1800	1.8kW	IPX1	1 / 4

2.5KW HIGH PERFORMANCE AUTOMATIC HAND DRYER

1
Year Warranty

IPX1

- Cast aluminium tough vandal resistant construction
- Modern stainless steel effect finish
- Pre-wired with 1m of mains lead: easy installation • Earthed
- Automatic operation: reduced cleaning requirement & increased hygiene
- Airflow 4.5m³/min. • Air speed 30m/sec.: rapid hand drying

Code	Wattage	IP Rating	MOM / OPQ
SSHDA-2500	2.5kW	IPX1	1 / 4

TUBULAR HEATERS AND GUARDS

1
Year Warranty

- Steel construction • Thermal overload cut out • Earthed
- Pre-wired with 1m mains lead: easy installation
- Additional locking cable gland included for through wiring / linking to other tubular heaters
- Mounting brackets included for wall or floor installation
- Low wattage solution for localised background heat and frost protection

TUBULAR HEATER GUARD:

- Steel construction • Fixing kit included
- Robustly constructed wire guard: provides protection and safety
- Colour matches tubular heater
- Aesthetically pleasing curved design

Code	Version	Wattage	IP Rating	MOM / OPQ
Heaters				
TH1	1ft Heater	60W	IP44	1 / 20
TH2	2ft Heater	120W		1 / 12
TH3	3ft Heater	180W		1 / 9
TH4	4ft Heater	240W		1 / 6
Heater Guards				
TRG1FT	1ft Guard			2 / 18
TRG2FT	2ft Guard			2 / 12
TRG3FT	3ft Guard			2 / 6
TRG4FT	4ft Guard			2 / 6

HAND DRYERS & HEATING

2.4KW PLINTH FAN HEATER WITH 3 COLOUR FASCIAS

1
Year Warranty

- Pressed steel construction • Airflow 0.85m³/min • Earthed
- Three fascias included: brown, white & stainless steel: complete solution reducing stock requirements
- Thermostatically controlled with thermal cut out: controllable temperature point for economic operation
- Pre-wired with 1.5m of mains lead: easy installation • Rubber feet: assist quiet operation
- Three settings for flexible heat output to suit room size:
 - 8kW fan only operation - 1.6kW half heat and fan - 2.4kW full heat and fan

Code	Wattage	IP Rating	MOM / OPQ
PFH2400	2.4kW	IP20	1 / 4

3KW SCREEN HEATER

1
Year Warranty

- Pressed steel construction • Earthed
- Pre-wired with 1.25m mains lead: easy installation
- Airflow 1.07m³/min • Air speed 3m/sec
- Illuminated switch • Quiet running
- Three settings for flexible heat output to suit room size:
 - 2.5kW fan only operation - 1.5kW half heat and fan - 3kW full heat and fan

Code	Wattage	IP Rating	MOM / OPQ
SH3WH	3kW	IP20	1 / 1

2KW ADJUSTABLE DOWNFLOW HEATER

1
Year Warranty

IP21

- Thermoplastic construction • Up to 2kW heat output: fast heating
- Mains indicator light • Thermal cut out • Pull cord on/off switch
- Internal adjustable thermostat: controllable temperature point for economic operation
- Internal load switch 1kW / 2kW: allows output adjustment to suit room size
- Double insulated

HEATING SETTINGS:

I = 1kW fixed heat / II = 2kW variable thermostat controlled*

*Once desired temperature is met, fitting will drop down to 1kW - this fitting will not turn itself off

Code	Wattage	IP Rating	MOM / OPQ
DFH2KW	2kW	IP21	1 / 6

2KW ADJUSTABLE DOWNFLOW HEATER WITH RUNBACK TIMER

1
Year Warranty

IP21

- Fire retardant Polycarbonate & ABS construction • Double insulated
- Up to 2kW heat output: fast heating • Mains indicator light
- Pull cord on/off switch • Thermal cut out
- Internal load switch 1kW / 2kW: allows output adjustment to suit room size
- Up to 35 minute runback timer - adjustable upon installation

DIP SWITCH MODES OF OPERATION:*

- 1 - On position 1kW / Off position 2kW
- 2 - On position 5 minutes
- 3 - On position 10 minutes
- 4 - On position 20 minutes

*You can have multiple time dip switches selected at one time, this allows you to add the times together e.g dip switch 2 and 3 on = 15 minutes

Code	Wattage	IP Rating	MOM / OPQ
DFHT2KW	2kW	IP21	1 / 6

OIL FILLED HEATERS

1
Year Warranty

Free-standing, compact and quiet oil-filled heater optimised for heat storage, with 4 wheels for easy manoeuvrability. Comes with three heat settings and adjustable thermostat for control. Provides peace of mind with overheat protection and a tip-over safety switch. Keeps things tidy with an integral store for the 1.5m cord and plug. Ideal for domestic and office environments.

- Fully adjustable thermostat
- Overheat protection for additional safety and peace of mind
- Anti-tip protection automatically switches off the unit if knocked over
- Multi-directional wheels
- Illuminated control switches when powered on
- Fitted with 1.5m cable with 10A plug
- Built-in cable and plug storage

- OILHT157 - 3 heat settings: 600W, 900W, 1500W
- Metal construction with 7 fins

- OILHT211/T - 3 heat settings - 800W, 1200W, 2000W
- Metal construction with 9 fins

NOTE: as with all portable heating appliances - this product is only suitable for well insulated spaces or occasional use

CONVHTTIM	24 Hour Timer			

All of our handy guides can be downloaded and printed from our website for **FREE**

LIGHTING CONTROLS

PIR SENSORS

When a moving object or person moves across the PIR's detection zone, the PIR will trigger the motion sensor to activate the linked light source

PHOTOCELLS

When a light source is controlled by a photocell, then the light is only activated during the Lux level and time selected

MW SENSORS

Have the same capability as PIR sensors with the added control of detecting movement over various temperatures and can cover much larger areas such as warehouses

TIME DELAY SWITCHES

These are useful in areas where lights are inadvertently left on. These switches allow the lights to be on for a set period of time only

LIGHTING CONTROLS FOR ADDED SECURITY

Lighting controls are a great cost effective way to add extra security to your building. Lighting controls are a great way to only trigger the light output when necessary instead of keeping the lights on at all times.

LIGHTING CONTROLS

All products have an install guide that can be downloaded from each individual products' website page, please refer to this for extra settings and installation information on your product.

STAND ALONE INTERNAL 360° PIR SENSOR

1
Year Warranty

360° PIR

- Polycarbonate construction • Double insulated
- 1600W incandescent, 500W fluorescent load capacity
- Max. 200W LED load capacity (no more than eight lights)
- Adjustable lux level • Time on adjustable: 10 sec - 15 min
- 4.5 metre radius range • 360° detection zone

Code	IP Rating	MOM / OPQ
SA360PIR	IP20	1 / 50

FLUSH MOUNTED 360° INTERNAL PIR DETECTOR

1
Year Warranty

IPX4

360° PIR

- Polycarbonate construction • Double insulated
- Time on adjustable: 10 sec - 15 min • Adjustable lux level
- 4.5 metre detection zone • 360° detection area
- Max 2000W incandescent / 500W fluorescent load capacity Max 250W LED load capacity (no more than eight lights)
- Recessed spring clip flush fixing: nonobtrusive when installed

Code	IP Rating	Hole Cut Out Size	MOM / OPQ
PIRFM360	IPX4	63mm	1 / 4

IP44 EXTERNAL 360° PIR DETECTOR

1
Year Warranty

IP44

360° PIR

- ABS construction • Double insulated
- Vertically & horizontally adjustable PIR head
- Bracket included for optional corner mounting: versatile installation options to suit a wide range of requirements
- 1000W incandescent lamp / 300W fluorescent / 150W LED (no more than eight lights) load capacity
- Time on adjustable: 5 sec - 5 min • 12 metre detection area
- Adjustable lux level • 360° detection zone

Code	IP Rating	MOM / OPQ
EX360PIRWH	IP44	1 / 20

EXTERNAL PIR DETECTORS

1
Year Warranty

IP44

110°/180° PIR

- ABS construction • Double insulated
- Time on adjustable: 5 sec - 5 min
- Vertically & horizontally adjustable detector
- 1000W incandescent / 300W fluorescent maximum load capacity
- Maximum 200W LED load capacity (no more than eight lights)
- 110° / 180° detection zone
- Adjustable lux level • 12 metre range

Code	Colour	Version	IP Rating	MOM / OPQ
PIR110BK	Black	110° PIR	IP44	1 / 30
PIR180BK	Black	180° PIR		
PIR180WH	White	180° PIR		

LIGHTING CONTROLS

TIME DELAY PUSH SWITCH

1
Year Warranty

- ABS construction • Red neon switch perimeter glow light
- Compatible with LED, fluorescent and incandescent loads
- Three load settings - 5-20W, 20-150W, 150-300W
- No neutral connection required: can replace existing switch with no additional wiring
- Time on adjustable between 12 seconds and 12 minutes
- Double insulated

Code	IP Rating	MOM / OPQ
PUSHLED	IP20	1 / 40

ELECTRONIC TIME DELAY PUSH SWITCH

1
Year Warranty

- ABS construction • Max load rating: 6 Amp incandescent 1440W
- Time on adjustable between 12 seconds and 12 minutes
- Red neon switch perimeter glow light: easy location of switching point
- No neutral connection required: can replace existing switch with no additional wiring
- Not Compatible With LED - See Eterna product above: **PUSHLED**
- Double insulated

Code	IP Rating	MOM / OPQ
TLS1440	IP20	5 / 40

16 AMP ELECTRONIC OUTDOOR TIME DELAY SWITCH

1
Year Warranty

IP66

- ABS construction • Double insulated
- Multiple accurate time settings using dip switches and rotary adjuster
- Incandescent 16 Amp max, fluorescent 6 Amp max, compact fluorescent 3 Amp max (maximum six fluorescent lights), low voltage 3 Amp max & fans and ventilation equipment 3 Amp max
- Multi point switching, connect two or more units in parallel
- Multi range delay function from 2 seconds to 2 hours: reduces energy consumption

Code	IP Rating	MOM / OPQ
TLS68EX	IP66	1 / 50

PUSH TO BREAK AUTOSWITCH

1
Year Warranty

- Momentary push switch: push to break contacts
- Thermoplastic construction
- Switching 1 Amp max (250V)
- Max. 25W LED load capacity
- Double insulated

Code	IP Rating	MOM / OPQ
XS63W	IP20	10 / 600

ADD-ON PIR SENSOR FOR ETERNA LED BATTENS

1
Year Warranty

100° PIR

- Robust polycarbonate construction • Double insulated
- Time-on adjustable: 30 secs, 3 mins, 5 mins, 8 mins
- Night & day or night only options selectable
- Detection range 3-6 metres • 100° detection area
- See Eterna **BATLED** range

Code	IP Rating	MOM / OPQ
BATLEDPIR	IP20	1 / 6

LIGHTING CONTROLS

MICROWAVE SENSOR

1
Year Warranty

IP65

Microwave
Sensor

This sensor can either be wired directly into an existing fitting providing there is sufficient space to do so or alternatively it can be installed inside a separate unobtrusive enclosure, see Eterna part code MWCASE

- Polycarbonate construction • Double insulated
- Rated Load - 800W (resistive), 400W (inductive), 270W (LED)
- Adjustable detection angle: up to 150°
- Power consumption: <0.5W
- Adjustable detection range: Max. 6m
- Adjustable time setting: 5 seconds - 30 minutes
- Adjustable Lux control: 2-50 lux
- Push connect terminals: for ease of connection

CASE:

- Polycarbonate construction
- Compact & discreet design: for housing Eterna part code SENSORMW
- IP65, ceiling or wall mounted: giving versatile fixing options, suitable for bathroom, internal and external use
- Supplied with two mounting screws to install SENSORMW and has 2 x 20mm gland entry holes: facilitating easy installation
- Screw fit cover to maintain IP rating, with clip on bezel: meaning enclosure cannot be tampered with easily

Code	Version	IP Rating	MOM / OPQ
SENSORMW	Sensor	-	1 / 150
MWCASE	Case	IP65	1 / 100

REMOTE FIXING MINIATURE PHOTOCELL

1
Year Warranty

Photocell

- Wired for remote fixing: ultra compact sensor head allows incorporation where space is extremely limited
- 1500VA / 5 Amp inductive load, Max 500W LED • Double insulated
- Thermoplastic construction • Switch on/off at 30/80 lux
- The cable gland fixing around the photocell can maintain up to IP65 dependant on the enclosure it is installed into

Code	Hole Cut Out Size	IP Rating	MOM / OPQ
EMPCR	20mm	IP20	1 / 5

NEMA SOCKET ELECTRONIC PHOTOCELL KIT

1
Year Warranty

Photocell

IP44

- Thermoplastic construction • Double insulated
- Electronic operation: improved accuracy over thermal types
- Supplied complete with mounting bracket and gasket
- 1500VA or 5 Amp inductive load at 60MFD • Max LED load: 1000W
- Switch on/off at 30/70 lux

Code	IP Rating	MOM / OPQ
NPCHKIT	IP44	1 / 5

EXTERNAL PHOTOELECTRIC SWITCH

1
Year Warranty

Photocell

IP44

- ABS construction • Double insulated
- Switching level adjustable between approx. 5-300 lux
- 10 Amp resistive, 3 Amp inductive load
- Run back timer adjustable to stay on between 1-8 hours after switch on: flexibility in operation for economic running costs
- Maximum 250W LED load capacity (no more than eight lights)

Code	IP Rating	MOM / OPQ
RDT10A	IP44	1 / 5

ACCESSORIES & LAMPS

ELECTRICAL ACCESSORY ESSENTIALS

Eterna provide all your basic lighting accessory essentials for most domestic premises. Our products are suitable for both refurb and new installations. Our products are all tested for safety and are manufactured to the highest standards to ensure safety and compliance with the latest regulations.

WIRED SURFACE MOUNTED BELL PUSH & ILLUMINATED OPTION

1
Year Warranty

This product is designed for domestic installation up to 15m range

- Polycarbonate construction • Concealed fixing holes
- Interchangeable black and white covers included: flexible solution - reduced stock requirements

Code	Version	IP Rating	MOM / OPQ
BPWB	Standard	IP20	10 / 400
BPLWB	Illuminated		

FAQ

Q) Can multiple bell pushes be wired together?

A) Yes, additional pushes must be connected in parallel

FAQ

Q) Can you use one push button to control two chimes?

A) No

FAQ

Q) Can this work on 240V

A) No, this needs connection via a transformer

FAQ

Q) What is the maximum length of wire between the push button and transformer?

A) Approx. 15 metres

DOOR CHIME WITH BUILT-IN TRANSFORMER

1
Year Warranty

This product is designed for domestic installation up to 15m range

- Integral transformer: neater, faster installation
- ABS construction • Modern design

Code	IP Rating	MOM / OPQ
TCWH	IP20	5 / 20

FAQ

Q) Can this be used to run a second bell chime?

A) No, this is a stand-alone unit

FAQ

Q) How loud is TCWH?

A) Approx. 80dB at one metre

BATTERY / TRANSFORMER OPERATED CHIME

1
Year Warranty

This product is designed for domestic installation up to 15m range

- ABS construction • Modern design
- Battery operation for non illuminated bell pushes
- Requires 4x 1.5V R14 'C' batteries (not included)
- Must be transformer operated for illuminated bell pushes (transformer not included - see BT4812)

Code	IP Rating	MOM / OPQ
DC1WH	IP20	5 / 20

FAQ

Q) How loud is DC1WH?

A) Approx. 60dB at one metre + the volume CANNOT be increased

FAQ

Q) Can you link two DC1WH units to the same transformer?

A) No

FAQ

Q) Can this be used with a lit bell push?

A) Yes, please use a transformer unit when using with an illuminated bell push, as the light will drain the batteries

MULTI VOLTAGE BELL / CHIME TRANSFORMER

1
Year Warranty

This product is designed for domestic installation up to 15m range

- Nylon construction • 1 Amp rated • Thermal cut out
- Double insulated: no earth connection required
- 4, 8 and 12V tapings: suits most bells and chimes

Code	IP Rating	MOM / OPQ
BT4812	IP20	5 / 60

FAQ

Q) What is the maximum length of bell wire that can be used to connect the transformer to the door chime?

A) Approx. 15 metres

FAQ

Q) Can multiple chimes / sounders be connected to BT4812?

A) No

FAQ

Q) How do you adjust the output voltage?

A) This has 4V, 8V, or 12V options as detailed in the install guide which can be downloaded from the website

SINGLE FUSED A RATED RCD SPUR & TWIN UNSWITCHED A RATED RCD SOCKETS

1
Year Warranty

- Type A rated to ensure tripping for residual a.c. currents and pulsating d.c. currents
- 13A fused spur with "passive" 30mA RCD protection at less than 40ms (typical)
- Complete with TEST button
- Mechanical latching (no need to reset after power loss)

SSARCDWH

- Highly stable and reliable polycarbonate construction, with raised square profile and screwed faceplate

TWSARCDMC

- Pressed steel construction with screwed faceplate
- Twin earth terminals for easy cable connections
- Easy cable-entry via knock-outs available on the surface mounting box (included)

TWSARCDWH

- Highly stable and reliable polycarbonate construction, with raised square profile and screwed faceplate
- Twin earth terminals for easy cable connections

SSARCDWH

TWSARCDMC

TWSARCDWH

Code	Colour	Version	IP Rating	MOM / OPQ
SSARCDWH	White	Single Spur	IP20	5 / 60
TWSARCDMC	Grey Metalclad	Twin Socket		5 / 30
TWSARCDWH	White			5 / 40

SINGLE FUSED RCD SPUR

1
Year Warranty

- Trip speed less than 40mS (typical) • Earthed
- Twin earth terminals: easy cable connections
- Passive operation - mechanically latched (no need to reset after power loss)
- Urea construction • 13 Amp rated • 30mA trip current

Code	IP Rating	MOM / OPQ
SSRCDWH	IP20	5 / 60

CONVERTER SOCKET 1 GANG TO 2 GANG

1
Year Warranty

- Conversion of 1 gang to 2 gang socket: simple retrofit solution where extra outlets are required
- Tough polycarbonate construction: impact resistant
- Earthed

Code	IP Rating	MOM / OPQ
CONVERT2	IP20	5 / 100

CONVERTER SOCKET 1 OR 2 GANG TO 4 GANG

1
Year Warranty

- Conversion of 1 or 2 gang to 4 gang socket
- 13 Amp fused
- Tough polycarbonate construction
- Surge Protection • Earthed

Code	IP Rating	MOM / OPQ
CONVERT4	IP20	5 / 40

ACCESSORIES & LAMPS

WATERPROOF ACCESSORY BOXES

1
Year Warranty

IP65

- Maintains IP integrity when cable in use: added safety while load is connected
- Lockable facility (security tag not included): for tamperproof installation
- Polycarbonate construction: tough, impact & corrosion resistant
- **SSBE** accepts standard 1 gang accessory & **TWSBE** accepts standard 2 gang accessory : flexible solution allowing a multitude of different uses

Code	Version	IP Rating	MOM / OPQ
SSBE	1 Gang	IP65	5 / 45
TWSBE	2 Gang		5 / 20

PLASTIC ADAPTABLE WATERPROOF BOXES / ENCLOSURES

1
Year Warranty

IP65 / IP54

- ABS construction
- Mounting plate available: allows easy fixing in the enclosure whilst maintaining IP rating
- Lockable door: added security (security tag not included)

MOUNTING BACK PLATE:

- Designed for use with the waterproof enclosures: allows easy fixing in the enclosure whilst maintaining IP rating

Code	Version	Inside Measurements W/H/D	IP Rating	MOM / OPQ

UK TERMS & CONDITIONS

GENERAL

In these conditions references to “the Company” are to Eterna Lighting Limited and references to the “Purchaser” are to any person or corporation with whom the Company enters into any contract whether directly or indirectly. All quotations or tenders given and all orders received and accepted are executed on the basis that the Purchaser is bound by these conditions of sale. Where there is any inconsistency between these conditions of sale and any conditions or other terms which the Purchaser seeks to impose, these conditions of sale shall prevail. These conditions supersede any other terms appearing elsewhere and exclude and override any other terms or representations stipulated or incorporated or referred to by the Company whether in the order or in any negotiations or course of dealings established between the Company and the Purchaser. No amendment or variation of these conditions will apply unless confirmed in writing by a director of the Company.

VALIDITY OF QUOTATION

The Company may on the Purchaser's request provide a written quotation. Unless otherwise agreed in writing, any quotation given is not for a fixed period and the Company reserves the right to adjust any prices quoted to reflect subsequent variations in cost.

DESCRIPTIVE MATTER AND ILLUSTRATIONS

All descriptive and forwarding specifications, drawing and particulars of weight and dimensions issued by the Company are approximate only, and are intended only to present a general idea of the goods to which they refer and shall not form part of the contract.

SAMPLE

Any sample submitted with the Company's quotation or at the Purchaser's request must be returned within 30 days of receipt and the Purchaser may be charged if not so returned. Notwithstanding that a sample of the goods may have been exhibited to and inspected by the Purchaser, it is hereby agreed that such sample was so exhibited and inspected solely to enable the Purchaser to judge for himself the quality of the bulk and not so as to constitute a sale by sample. The Purchaser shall take the goods at his own risk as to corresponding with the said sample or as to their quality, condition or sufficiency for any purpose.

PRICES

Unless otherwise agreed in writing, all orders are accepted subject to prices and any relevant discounts applying at the date of delivery and any price list of the Company whether published or not shall not affect the right of the Company to charge for goods in accordance with this clause. All prices are exclusive of Value Added Tax duties and levies which shall be payable by the Purchaser at the applicable rate.

MINIMUM ORDER VALUE AND CARRIAGE CHARGES

The Company reserves the right to levy a handling charge on any orders the total invoice price of which (excluding VAT) is less than the current minimum order value of £150.00 or any such value as may be notified to the Purchaser from time to time.

Unless otherwise specified, the prices quoted for all orders exceeding the minimum order value (excluding VAT) are inclusive of the costs of carriage provided delivery is to be effected within mainland United Kingdom. The Company reserves the right to choose the mode of transport and to charge for deliveries outside mainland United Kingdom, such charges to be for the account of the Purchaser.

PAYMENTS

Until such time as the company has confirmed credit account facilities in writing, payment is due in full on or before delivery. The Company may at its discretion establish a credit account for the Purchaser. If such an account is established, unless agreed otherwise in writing, payment is due in full within 30 days from the end of the month in which the invoice is dated. The Company may, without prejudice to its other rights, charge interest on overdue accounts at the rate of 4% over the base rate of The Bank of England from time to time to be compounded monthly from due date until payment in full is made both before and after judgement. The Company

may also suspend deliveries without notice, of any or all of the Purchaser's orders or cancel any outstanding orders if any payment from the Purchaser becomes overdue (or upon insolvency or bankruptcy of the Purchaser, and further where (i) a petition is presented for the winding up of either party to the contract, (ii) it has an administrator or liquidator appointed, or (iii) either party makes an arrangement with its creditors) without incurring any costs or other liability as a result of such cancellation. Any portion of an account that becomes overdue will render the whole account overdue. Where the contract provides for separate instalments, deliveries or parts, payment for each instalment, delivery or part shall be made as if the same constituted a separate contract. The Company shall have the right to invoice the Purchaser for a partial delivery of the goods.

NO CANCELLATION

For the avoidance of doubt:

There can be no cancellation or return of goods by the Purchaser without the Company's written consent.

If the Purchaser cancels its order, the Company shall be entitled to recover any loss sustained thereby from it. The Purchase will indemnify the Company in respect of any third party claims arising against the Company by virtue of any act or omission arising out of the Company's repudiation of the contract or suspension or cancellation of deliveries under this clause.

PROPERTY

Title to the goods shall remain the property of the Company until the Company has received all payments which are owing to it by the Purchaser under any account whatsoever. While the goods are the property of the Company, the Purchaser shall hold them as bailee on behalf of the Company and shall keep the goods safe, insured, separate and identifiable from all other goods in its possession. If the Purchaser sells the goods before payment in full has been made and if the Company so requires, the Purchaser shall hand over to the Company all claims for payment against any sub-purchaser.

So long as the property in any goods remains in the Company, the Company shall have the right, without prejudice to the obligation of the Purchaser to make payment in full of any sums outstanding on any account, to take re-possession of the goods and for that purpose the Purchaser hereby irrevocably authorises the Company to recover the goods and to go upon any premises of the Purchaser for that purpose. The Company may maintain an action for the price of the goods notwithstanding that property in the goods may not have passed to the Purchaser.

LOSS OR DAMAGE IN TRANSIT

The Company will not be liable for any loss or damage or shortage during delivery or non delivery unless the Purchaser shall notify the Company in writing within three working days in the event of loss, damage or shortage or within four days of the date of invoice if the goods are not received.

WEEE COMPLIANCE

The Company places various types of Electrical and Electronic Equipment (EEE) on the market in the UK. EEE is subject to waste regulation under the Waste Electrical and Electronic Equipment Regulations 2006 (as amended) and should be disposed of responsibly and prioritised for re-use and/or recycling when it becomes waste (WEEE). Purchasers may dispose of their WEEE free of charge locally at Designated Collection Facilities (DCFs). Details of your local DCF can be found at: www.recyclenow.com. The Company is obliged to take back, free of charge and within a reasonable time, WEEE from a Purchaser on a like-for-like basis for treatment and recycling. The Company is required to do this in any calendar year in which new EEE has been purchased by the Purchaser. In certain circumstances, this may include WEEE not originally supplied by the Company. If any Purchaser requires the Company to take back any WEEE, they should write to the Operations Director, Eterna Lighting Ltd, Huxley Close, Park Farm, Wellingborough NN8 6AB, who will then advise on the necessary arrangements for the receipt, proper treatment, and recycling of the WEEE.

BATTERY COMPLIANCE

Within certain products the Company places lead acid, lithium ion, nickel cadmium & nickel metal hydride batteries on the market. Industrial batteries are subject to waste regulation under the Waste Batteries and Accumulators Regulations 2009 and should be disposed of responsibly. Purchasers may be able to dispose of their waste industrial batteries locally via legitimate licensed trade waste contractors. The Company is obliged to take back, free of charge and within a reasonable time, waste industrial batteries of the same chemistry supplied to a Purchaser, for treatment and recycling and is required to do this in any calendar year new industrial batteries are placed on the market. In certain circumstances, this may include batteries not originally supplied by the Company. If any Purchaser requires the Company to take back industrial batteries, they should write to the Operations Director, Eterna Lighting Ltd, Huxley Close, Park Farm, Wellingborough NN8 6AB, who will then advise on the necessary arrangements for the receipt, proper treatment and recycling of, the waste industrial batteries.

DELIVERY

Any times quoted for despatch, repair or replacement are to be treated as estimates only and time shall not be deemed to be of the essence of any contract between the Purchaser and the Company. The Company shall not be liable for any loss whatsoever arising as a result of any delay. Delivery shall occur on despatch or collection of the goods from the Company's premises by carrier whether or not the carrier is the Company's agent or servant. Unless otherwise agreed in writing the Company shall deliver the goods to the address specified in the Purchaser's order. Risk in the goods shall pass to the Purchaser on delivery or collection. Insofar as there is any delay in delivery which is attributable to the Purchaser, the Company may charge the Purchaser such additional transportation costs, storage charges and handling charges which may arise as a result of the Purchaser's failure to take delivery on the due date. Save as expressly provided in these conditions, all terms, conditions, representations and warranties (whether express or implied) relating to the sale of goods are excluded and the goods are not sold by description or sample.

WARRANTY AND EXCLUSION

The Company will use its reasonable endeavours to assign the benefit of any warranty it receives from its supplier to the Purchaser but shall not be liable for any claim or claims for any damages whether direct, indirect special or consequential or economic damage or loss (including loss of profit or goodwill) arising from any breach by its contract or any defect in the goods. In certain circumstances and for certain product ranges, the Company may offer a specific warranty against defects arising from faulty design or materials, for a defined period. Any warranty period offered will be deemed to have commenced on the date the goods have been delivered to the Purchaser.

The Company will not be liable for any warranty or guarantee where the Purchaser has not paid for the goods in full by the due date.

Nothing in these conditions shall exclude liability of the Company for death or personal injury resulting from its negligence insofar as the same is prohibited by United Kingdom statute.

FORCE MAJEURE

The Company shall not be liable for delay in performing or for failure to perform its obligation if the delay or failure results from any of the following, Act of God, outbreak of hostilities, war, riot, civil disturbance, acts of terrorism, government order, direction of legislation, fire, explosion, flood, bad weather, accident, strike or other industrial action, lock-out, failure of telecommunication lines, failure or breakdown of plant machinery or vehicles, transport delays, default of suppliers, or any other occurrence over which the Company has no control.

LEGAL CONSTRUCTIONS

These conditions and any contract following thereon shall be governed by and construed in accordance with English Law and the Purchaser submits to the jurisdiction of the High Court of England but the Company may enforce the contract in any Court of competent jurisdiction.
