Eterna's Free Lighting Design Service.

From concept through to product specification

Our free lighting design service offers detailed insight and solutions for commercial, residential, industrial and emergency lighting projects.

Our team of dedicated lighting designers have years of industry experience and are up to date with any changes to the lighting standards, including BS EN 60598-1 and BS EN 60598-2-22.

Whether commercial, industrial or residential, we approach each and every project in the same way. It involves building a close relationship with the specifier to understand the rooms, their function and creating a plan that offers a plan of lighting solutions that meets compliance but helps to create spaces that create well-lit and comfortable spaces for everyone.

We also ensure that all spaces are safe and compliant with all emergency lighting level standards.

We Are eterna.

Eterna has been a specialist supplier of lighting, heating, and electrical products to the UK and Irish trade markets since 1946. We provide wholesale-friendly, energy-efficient, and cost-effective solutions that meet the diverse needs of stock and project requirements across the residential, commercial, amenity, and industrial sectors.

We are a dedicated team offering our advice and expertise through your entire buying journey, from stocking solutions, lighting design and technical support. It's our mission to provide invaluable service to everyone.

As part of a client relationship, you will be supported by our external sales force, who will provide regular face-to-face contact, showcasing new products, upgrades and marketing support. They will be backed by our dedicated internal teams, all working together to consistently exceed market expectations with our exceptional service levels.
